Coast Products Introduces Line of Columbia Sportswear Outdoor Tools and Zip-Rings

General Overview

For Summer 2005 Columbia has introduced a full line of functional outdoor accessories and tools developed and marketed by Coast Products. The product selection includes a line of handheld high-intensity LED lights and unique multi-function outdoor tools designed for performance and value. In addition to the outdoor tools, Coast has introduced a line of Columbia Zip Ring Attachables. Zip Rings are designed to be small enough to easily attach to a jacket zipper, key ring or backpack, while at the same time providing the user with a light or tool with full sized function. All Zip-Ring attachables come packaged in their own reusable tin containers – ideal for gift giving or storage.

Standard Zip-Ring Attachables

Standard Zip Ring Attachables are functional outdoor tools that are designed to be small enough to easily attach to your jacket zipper, key ring or backpack, while providing the user with full-sized function. The line includes four lighting devices; a Signal Light (CL7469) which includes an LED light and refractor tube, a 3 ¼ inch Nano Tac Torch (CL7839), a 3 ¾ inch Mini Tac Torch (CL7831) and a Zipper Pull (CL6845) with three LEDs and a compass. Zip Ring tools include a 10-function Micro Tool Box (CL3700), an eight function Whistle Tool (CL3171), a six function Pocket Tool (CL3750) and a Key Chain Compass (CL9750) with a thermometer. Columbia Zip Ring Attachables are available at sporting goods and department stores nationwide.

Titanium Zip-Ring Attachables

Titanium Zip-Ring Attachables are designed with the same attention to detail and quality as our outdoor tools, but each tool or light is titanium coated for extra durability and long-life, even in outdoor conditions. The titanium finish also adds a very professional look that makes these the perfect accessories for work, play or school. Titanium zip rings include a Backpack Light (CL7470), a UFO Light (CL7524) that is shaped like a space ship, an Alien Light (CL7537) which is shaped like an alien head with eyes that light up, and the worlds smallest flashlight, the Micro Torch (CL7520). Additional titanium tools include a combination Safety Whistle and Screwdriver (CL7445), Mini Screwdriver Kit (CL3656), Pocket Pen (CL7440), and a Key Organizer (CL7155). Titanium Zip-Ring Attachables are available nationwide at department and specialty stores.

Outdoor Tools

Powered by patented technology, Columbia brings you the world's most advanced hand-held lights. Using Coast's patented LED Lenser Prism Reflector System or Crystal Reflector Tube System, Columbia's LED torches are some of the most technologically advanced on the market today. The unbreakable LEDs are 70% more efficient than standard incandescent lights and never need to be replaced. The solid metal casings will stand up to the most rugged outdoor use. The 24-carat gold contacts are corrosion resistant and provide the best energy conduction available. LED lights include the Mico Flex Torch (CL7578) which has a flexible neck to point light anywhere you need it, the Micro Tac Torch (CL7766) and the Turbo Tac Torch (CL7765). The biggest lights in the line are the Triplex Tactical Torch (CL7745) and The Power Chip Tactical Torch (CL7737). The Triplex uses three LEDs and the Crystal Reflector Tube System to produce a wide, floodlight like beam. The Power Chip pairs a high-intensity 1.25 watt LED with the Prism Reflector System to produce a beam of unmatched depth and focus.

The Outdoor Tools line also features multi-function knives and pliers for a variety of outdoor uses. The 7-Function Pocket Tool (CL5315) and 10-Function Pocket Tool (CL5325) are key chain sized Swiss-style knives with features usually found on full-sized pocket knives. The Lighter Knife (CL5335) is a standard sized Swiss-style knife with 13 functions, including built-in refillable butane lighter. The Thermometer Knife (CL5379) is also a Swiss-style knife, but with 14 functions and a digital thermometer. Completing the Outdoor Tools line are Micro Pliers (CL2075) and Pocket Pliers (CL4385) multi-tools. Micro Pliers include 11 functions in a key chain sized package that folds to just 2 ½ inches. Columbia's Pocket Pliers have 17 functions and is perfect to carry on a backpack or in the included carrying pouch. Columbia Outdoor Tools are available at sporting goods retailers nation wide.

About COAST

COAST Products is a family owned business that has been producing quality products since 1919. COAST Knives were first introduced by Henry W. Brands, Sr. to provide quality knives to the farmers, ranchers and working men of the Pacific Northwest. Now run by Henry's grandson David Brands, Coast produces COAST Sport knives and Multi-Purpose Tools as well as a full line of COAST Led Lenser lights, including Turbo Torches, Tek Torches and Tac Torches. Coast also manufactures licensed products under the brand names Eddie Bauer and Columbia Sportswear. In addition, Coast is the exclusive distributor and licensee of Puma Knives in North America. Puma knives have been made in Solingen, Germany for over 200 years. Together COAST and PUMA represent almost 300 years of manufacturing expertise.
