**COAST PRODUCTS TEAMS WITH NORTHWEST MEDICAL TEAMS TO
PROVIDE TSUNAMI RELIEF SUPPLIES
600 Coast LED-Lenser Flashlights Sent with Medical Teams to SE Asia.**

Portland, OR: Coast Products announced today that it has donated 600 Coast LED-Lenser Turbo Torch flashlights to be used by the Northwest Medical Teams International tsunami relief efforts in Southeast Asia. The hand-held LED (Light Emitting Diode) lights were sent to aid the Northwest Medical Teams in their disaster relief efforts.

The Coast V2 Triplex Turbo Torch is the next generation of hand-held lighting devices. The patented technology uses light diodes and reflector tubes, rather than standard bulbs to produce a brilliant light beam. The V2 Triplex is 5 7/16 in. long and comes with a sheath, so transporting the lights is extremely easy.

Especially beneficial in disaster relief efforts, Turbo Torches are cold burning – not hot – so they are safer and much more energy efficient than standard lights. They use standard batteries, but the batteries will last much longer than in traditional lights. Additionally there are no bulbs to break or burn out and the metal cases are shock proof and water-resistant.

Coast has pledged to provide additional Turbo Torches to the Northwest Medical Teams as needed throughout the disaster relief process.
